

HAPPINESS

RESULTS PR1

Quality results derived from the Erasmus + project „Happiness simple solution for complex problems“ are that we have completed the research of best practices in the participating countries.

When choosing practices, we made sure that these practices were easy to use and that they represented a unique creation and innovation.

Then we created a methodology for the selection of best practices applicable in working with students. We have done gap analysis and needs analysis and prepared a manual that will be certainly a quality resource for teachers in preparing activities with students, and when this topic is in question.

WHAT IS HAPPINESS?

Happiness is an emotional state characterized by feelings of joy, satisfaction, contentment, and fulfillment. While happiness has many different definitions, it is often described as involving positive emotions and life satisfaction.
